

Siteworks/TBC Advance Measurement Workflow

A virtual classroom led by live instructors for Siteworks/TBC Advance Measurement Workflow

SITECH Northeast has designed a class that will cover basic field to finish workflows delivered remotely to your computer. Our 2x2 hour class sessions spaced a week apart will allow us to train on topics without being in a classroom and will also avoid dreaded data overload syndrome.

Cost: Attendance is \$160 per student/computer sign-on.

You must register in advance on-line at: www.sitechnortheast.com/events.

Each session begins promptly at 2:00 PM and concludes at 4:00 PM. Electronic course material will be provided along with a 10-day full license code and a certificate at the successful completion of the class.

Topics included but not limited to:

Siteworks/TBC Advance Measurement Workflow - 4 Hours Total (Two 2-hour sessions)

- Create Siteworks Project with .FXL Library
- Collect as-build data with Feature Coded points, lines, & areas.
- Export collected data with .FXL Attributes
- Create TBC Project with .FXL file
- Import feature-coded data from field
- Process Feature Codes in TBC
- Plot sheet with as-build data to PDF

Click here to load the most current version of TBC on your computer **FOR FREE!**

Although this class is virtual, we have a **6 student limit** to ensure an appropriate teacher/student ratio. Please go on-line to register for each session.
