#### Create a New Design from Hard Disk/USB:

\*On the Siteworks upper left main screen tap the <u>3-Bar Hamburger Icon</u> and select <u>Change Project</u>.

\*Remain in the same project and tap + (*plus sign*) to the right of the <u>Work Order</u> window to create a new <u>Work Order</u>, tap <u>OK</u>.

# \*In the <u>Work Order</u> window name the work order, create <u>Instructions</u> in the <u>Instructions (optional)</u> window to reference the work order, tap <u>FINISH</u>.

New Work Order		Ċ	$\times$
Work Order	NewDesignUpdate		
	Hold New Design for Line and Grade		
Instructions (optional)			
		FINISH	

# \*Tap + (plus sign) to create a new **Design**.

Open Project			3 🗵
Project	NewProjectTest		Ð
Work Order	NewDesignUpdate		Ð
Instructions	Hold New Design for Line and Grade		
Design	(No design needed)		Ð
		ACCEPT	

\* Type the design name in the <u>Design name</u> window, check the box next to <u>Select</u> <u>design file</u> and tap <u>Tap to select file</u> in the <u>Select design file</u> window.

Create Design		8	$\otimes$
Design name	NewDesign220909 FG		]
Select design file			
Select design linework			
Select stakeout points			
Style guide			
File name (.CSV)			
	FINISH		

\*In the <u>Drive</u> window tap the drop-down list to and select **D:\** drive. In the <u>Type</u> window select <u>design file</u>, tap the <u>Enter up arrow</u> (*D*:\) below <u>File name</u>, then path to the new design file location and select it, tap <u>ACCEPT</u>.

Select File					đ	$\otimes$
